## Program

- 10:00-11:00 Takuya Watanabe (Ritsumeikan University)  
Semiclassical distribution of resonances associated with an energy-level crossing
- 11:10-12:10 Tomoyuki Kakehi (University of Tsukuba)  
Mean value operators on symmetric spaces
- 14:00-15:00 Hiroshi T. Ito (Ehime University)  
On resonances of relativistic Hamiltonians
- 15:10-16:10 Wolfram Bauer (Leibniz University of Hanover)  
On the complete integrability of the geodesic flow on pseudo-H type Lie groups
- 16:30-17:30 Kenro Furutani (Tokyo University of Science)  
Riemannian submersion and Maslov quantization condition

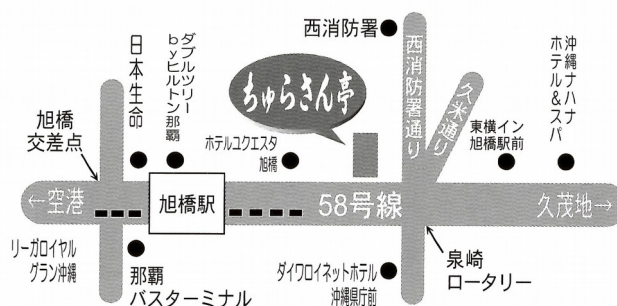

## Organizers

- Hiroyuki Chihara (University of the Ryukyus)
- Eiji Onodera (Kochi University)
- Koichi Kaizuka (Nippon Medical School)

Dinner: December 15, 18:30-, at Churasantei (Okinawan Restaurant)
